

Training on Rainwater Harvesting System

24-26 July 2017

Programme Schedule

Time	Module	Session Details
Day 1 (24th July 2017)		
9:00 – 9:45	Introduction and overview	About CSE and the training programme
		Introduction of participants
9:45 - 13:30	Water challenges in India	Water management in India: Issues and challenges
		Film: Jal Yodha/ Waterworks India English / Hindi (22 Minutes)
		Tea break (11:30 to 11:45)
	Rural RWH	A snapshot of key interventions for rural water management and its impact
		Role of community participation in revival of traditional water management systems
13:30 -17:30	Tools and Techniques to design RWH	Lunch break (13:30 to 14:30)
		Components of RWH and data collection requirements
		Tea break (15:30 to 15:45)
		Components of RWH and data collection requirements
		Designing of RWH: Storage and recharge
		Feedback
Day 2 (25th July 2017)		
9:00 - 13:30	Case examples of RWH	Field visits: Rainwater Harvesting System at Indian Spinal Injury Centre (ISIC), New Delhi Rainwater Harvesting System at Nizamuddin East Colony, New Delhi
		Lunch break (13:30 to 14:30)
14:30- 17:30	Rural RWH	Watershed analysis and ground water management in rural areas
		Tea break (15:30 to 15:45)
		Showcasing RWH system of CSE
		Check dam: Planning and designing for macro RWH

Day 3 (26th July 2017)

Day 3 (26th July 2017)		
9:00 - 13:30	Tools and Techniques to design RWH	Reflection session
		Filtration system and operation and maintenance of RWH system
		Economic feasibility – RWH
		Tea break (11:00 to 11:15)
		Do it yourself: Plan and design RWH
13:30 - 17:30		Lunch break (13:30 to 14:30)
		Do it yourself: Plan and design RWH
		Tea break (15:30 to 15:45)
		Do it yourself: Plan and design RWH
		Group presentations
	***	Feedback and certificate distribution
